

## **Agenda item 10**

### **Matters raised by the Mission Areas**

#### **From: Maelor Mission Area**

Safeguarding remains a priority for us all and we would value an update on current developments following the appointment of a new Provincial Director of Safeguarding.

1. Could we have an update on progress in updating the DBS register, please. Some work was going on when COVID struck.
2. We have had issues in Maelor Mission Area with clergy who have gone through the DBS procedure in the Church of England having to redo training in the Church in Wales. Might it be possible to simplify training when a top-up is needed for someone who has already been cleared in another church?
